Geelong Trades Hall statement of support:

Dear ASU members,

Geelong Trades Hall Council is writing to you to voice our support for your EBA campaign at Target's head office in Geelong.

We have followed with keen interest your recent win in the Fair Work Australia tribunal, which forced Target to the negotiating table after two years of stalling.

Of course, while there is still plenty of hard work in front of you, you should all be justifiably proud of your determination to have a say over your workplace pay and conditions.

We recognise that you have fought long and hard to get to the bargaining position you are in, and your union colleagues at Trades Hall are impressed with your efforts thus far.

We can only further encourage you to remain united throughout the bargaining period with Target management.

It will doubtless be a tough negotiating process, but we want to reassure you that you have our full support here at the Geelong Trades Hall Council.

It is always an uphill battle whilst a tough fought out EBA campaign is in full swing, there will be moments of frustration and seeming setbacks, but if you stick together you will achieve your goals in the end.

I am sure it will be a successful EBA.

GTHC wishes you every success.

Yours in unity,

Tim Gooden
